

# PATGUARD TIME MANAGER 2

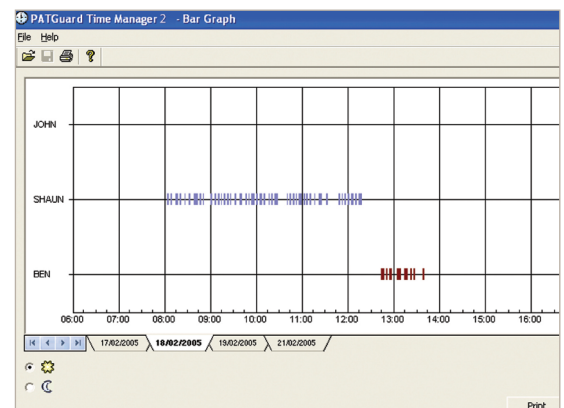

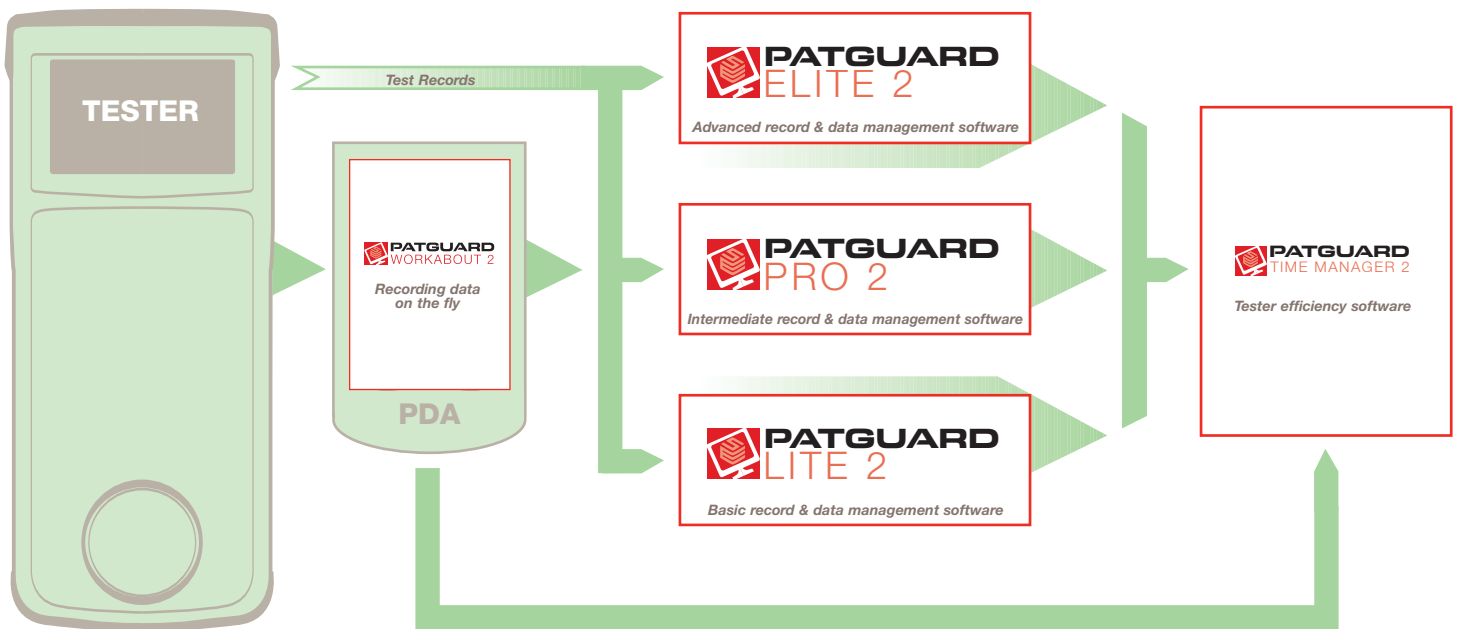

Time Manager is an exciting software package that provides clear time management facilities. It's ideal for companies that manage off-site or remote testing staff and need to manage their business in a time efficient manner. It runs independently of the data management PATGuard 2 software ensuring total confidentiality and provides clear information on the user's activity such as number of tests taken, and time of tests. Because of this, it helps you to understand how the testers are used so that you can easily identify where improvements in staff training are needed. This will enable you to help your staff to test faster and more efficiently. The graphical data display lets you see the tester's usage simply and quickly.

## Key Features

- Helps you manage tester usage
- Provides clear test activity information
- Analyse information such as; number of tests, and test time
- Identify where improvements in staff training are required
- Improves tester efficiency

## Ideal for the following users

- PAT Testers
- Electrical Contractors
- Large/Medium Businesses
- Public Sector
- PATGuard 2 Software Users

▲ See where your employees time is being used with an easy to read, graphical display.

# SUPERIOR SOFTWARE

Our PATGuard 2 software is designed to be highly functional, easy to use and above all, helpful. It is available in three versions, each offering the optimum number of functions depending on your requirements. Each software package will add value to the safety testing facilities you offer your customers or use in-house. This can be achieved by utilising full test records, scheduling and pre-emptive, automated notification.

This means you know exactly where all test equipment is located, its test status, and when it requires re-testing. Add to that our PATGuard Work About 2 software which enables mobile working through your PDA and PATGuard Time Manager 2 for managing test times on the job, and you are in total control.

This cuts down on administrative tasks, it can save a lot of valuable time. So whether you are a large international company or small, local firm, PATGuard 2 software makes economical sense.
